#### **Ekas only boy in the quadruplet of toppers.**

The results of the 2017-18 CBSE Senior Secondary Examination held in March 2018, showed the long tradition of the girls excelling in the academics. Ekas I-1119 joined the party of three girls and formed a quadruplet of toppers. In Science Stream, Deeksha IG-1342 joined hands with Ekas and topped with 93.2% marks. In Commerce Stream, Bharti SG-1130 came up with 94.8% marks and left everyone behind. While the results of Humanities group showed Swati IG-1107 on top, who got 94.8%. In the overall results, Bharti and Swati both snatched the first position pushing Ekas and Deeksha on the second place. Two students in Hindustani Vocal Music and one student in Economics touched the zenith and achieved the perfect score of 100. To show the difference, there were 10 more students, other than 4 toppers, who also secured 90% or above marks.

In Science Stream, 60.48% students got distinctions, to be specific, 41 students achieved distinctions in one or more subjects making the total 124. Commerce Stream showed 53 distinctions in all, while 36 students secured 107 distinctions in Humanities

group. To sum up, all 97 students made a huge pile of 284 distinctions.

The class X results, too, created the similar scenario, the girls surpassing the boys. The top three positions were grabbed by the girls. Amisha SG-1187 and Yashika IG-1169, bracketed together, stood first with 91.8% marks, while Ashima IG-1163, not far behind, got the second place with 91.2% marks. When we talk about distinctions, our students got it in one or more subjects making the total of 232.

#### **Rai gets Green**

Motilal Nehru School of Sports, Rai, again won Green School Award for the year 2017. This award is given by the Centre for Science and Environment (CSE) on the basis of 6 parameters air, water, energy, land, food and waste. Out of 2863 schools from all over India which participated for the award, MNSS Rai received this award in the change maker category. Our school has installed new solar panels and a Rain Water Harvesting system is under construction in the new shooting range. Waste water is treated in

STP (Sewage Treatment Plant) with its capacity of 1000000 litres. The water after treatment is used for irrigation.

A team from the school comprising of Mrs Asha Sharma and Mrs. Archana Malik along with 4 students went to receive this award, to Habitat Centre Delhi on Feb 7, 2018. CSE team visited our school on 18-2-18 to see good eco-friendly practices being followed by us.

### **Environment Week**

Protecting and caring environment is always a prime objective of us the Raists. From cleanliness to plantation, watering, trimming and caring, we undertake everything to create and develop our environment. We sensitize the students and spread message/awareness about global issues, flora and fauna, mother nature. We know that by protecting nature, we are protected and safe.

This year in KNS we observed Environment Week from 30-4-18 to 5-5-18. All the display boards were done up with charts of pictures, information and quotations. To be brief, the whole KNS was given a festive look. Various jobs, related to the environment, were assigned to the staff members. Plantation, quotation writing, daily words matching the theme, birds watching and identification of trees etc., were undertaken. All the teachers and the students went on toes for the whole week.

In the final celebration, each group presented the report of their learning experiences. The outcome

was that the Environment Week proved to be significantly productive since the students were able to learn a lot about their surrounding. Birds watching gave a new special experience to them. They were awe stricken to see various birds in their natural state. VI D students presented their class item on the related theme. Some students put up on the stage poems and action songs etc. The whole celebration ended with a pledge taken by the students. They promised to be kind, loving and compassionate to the birds and animals and to take care of them. They also promised to themselves to protect the environment and to keep the campus clean. The children were also advised not to waste the paper, instead use it judiciously.

## **Stress Management**

Following the guidelines and instructions of CBSE, we in KNS (Junior Wing), have started fun activities for the students in order to keep them free from stress and tension. We have kept, post-milk break periods on Saturdays, reserved for joyful activities. To make the event more interesting, creative and learning oriented, we have decided to give it a theme. So we began on 7-4-18 with the theme animal kingdom. Initially the students were divided into 10 groups. Each group was allotted one animal and then supposed to present various activities related to the animals and their young ones, homes, cries, group names(collective nouns) and qualities. The students put up poems, mimes, enactments, quiz, speech etc. We had also aimed at spreading a message for the students to be kind, compassionate and loving to the animals and to take good care of them. At the end we felt that the students not only enjoyed the event but also learnt a lot about animals.

On 19-5-18 we had the second episode of fun activities. This time we aimed at enriching vocabulary. Again the students were divided into 11 mixed groups. Each group was assigned a word and then all the students in each group were expected to contribute with the words related to the theme word. They all undertook it whole heartedly and made significant contribution. The result was amazing that they finally came out with a huge pile of words. Again the event served the educational purpose of enriching vocabulary of various areas while they enjoyed every bit of the event.

On both the occasions, the students displayed their feeling of cooperation, helpfulness and sharing. They also felt the importance of their bit of contributions which is one of the objectives of teaching learning process.

## Orientation
